Volume 41, February 1997

"Influence of hypoxia on endothelin-1 binding sites in neonatal porcine pulmonary vasculature." On page H671, Fig. 1 should appear as below (part of the x-axis in A was inadvertently masked by B).

A

![Bar graph showing plasma ET levels under control and hypoxia conditions at different ages]

B

![Graph showing plasma ET levels over time with hypoxia, recovery, and control conditions]
