**American Journal of Physiology-Heart and Circulatory Physiology**

**Scope of Journal**

The American Journal of Physiology-Heart and Circulatory Physiology brings you the most distinguished reporting of leading-edge findings in the field.

**AJP-Heart and Circulatory Physiology** covers all areas of the cardiovascular physiology, including:

- experimental and theoretical studies of cardiovascular function from the whole organism to cellular, subcellular, and molecular levels
- critical new insights into the mechanisms that determine the performance of the normal and abnormal heart and circulation
- timely editorial reviews

**Authors** are required to submit papers online at [www.apscentral.org](http://www.apscentral.org).

---

**Reader & Author Benefits**

- Fully searchable text, including PubMed
- Rich color and sharp resolution of figures
- Editor’s Home Page at [www.the-aps.org/publications/ajpheart](http://www.the-aps.org/publications/ajpheart)
- FREE access to the extensive collection of back issues available online 12 months after publication
- FREE e-mail notification of new content as it becomes available
- Manuscripts online within days of acceptance
- Perpetual/Electronic Archiving of the LOCKSS and CLOCKSS systems preserves the electronic content of all APS journals.

Authors can choose to pay $2,000 on top of regular author fees and have their article made free immediately.

---

**A Few HOT Articles**

**Biology of bone marrow-derived endothelial cell precursors**
Gina C. Schatteman, Martine Dunnwald, Chunhua Jiao

**Antiatherogenic potential of red wine: clinician update**
Paul E. Szmitko, Subodh Verma
Am. J. Physiol. Heart Circ. Physiol. May 01, 2005; 288: 2023-2030

**Endothelial dysfunction: a multifaceted disorder (The Wiggers Award Lecture)**
Michel Feléotou, Paul M. Vanhoutte

**Regulation of a voltage-sensitive release mechanism by Ca2+-calmodulin-dependent kinase in cardiac myocytes**
Jiequan Zhu, Gregory R. Ferrier

**Physiological time-series analysis using approximate entropy and sample entropy**
Joshua S. Richman, J. Randall Moorman

---

**Editor-in-Chief**
Alberto Nasjletti, New York Medical College

**Associate Editors**
Penelope Boyd
Columbia University
Oscar Carretero
Henry Ford Health Science Center
Dipak K. Das
University of Connecticut
Garret J. Gross
Medical College of Wisconsin
David A. Guterman
Medical College of Wisconsin
Thomas H. Hintze
New York Medical College
Virginia H. Huxley
University of Missouri-Columbia School of Medicine
Luisa Iruela-Arispe
University of California, Los Angeles

Attention Authors:

Important Information about the NIH Public Access Policy & Your Manuscript

Under the NIH Public Access Policy, NIH is asking its funded investigators to voluntarily submit to PubMed Central (PMC) the author's final manuscript of articles resulting from research supported in whole or in part with direct costs from NIH. According to the NIH, this policy applies only to manuscripts accepted for publication on or after May 2, 2005.

If you choose to submit your accepted manuscript to PMC, you will be asked to indicate when that manuscript should be made available to the public. As copyright holder of your article, the APS has the sole right to publish or disseminate it. However, the APS grants you permission to allow public release of your manuscript through PMC 12 months after publication in the print version of an APS journal.

This period of time is consistent with our existing policy to make all content publicly available through HighWire Press 12 months after print publication. NIH will be able to determine when 12 months have elapsed because APS sends NIH electronic feeds of the article metadata upon publication in a journal issue. Therefore, you can submit your accepted manuscript to PMC at the time of acceptance to an APS journal, and will not have to calculate or track time elapsed from publication.

NIH intends to use the PMC database of manuscripts for portfolio management; to create a permanent archive of articles based upon NIH-funded research; and to give the public access to research publications. In announcing this policy, NIH officials underscored that it is voluntary and there will be no sanctions of any kind against authors who do not submit their manuscripts. If you have any questions with respect to the NIH Public Access Policy and the publication of your article in an APS journal, please contact Margaret Reich at mreich@the-aps.org.
CALL FOR NOMINATIONS

for the Editorship of

*Physiological Genomics*

Nominations are invited for the Editorship of the *Physiological Genomics* to succeed A. W. Cowley, Jr., who will complete his term as Editor on June 30, 2009. The Publications Committee plans to interview candidates in the Fall of 2008.

Applications should be received before **August 15, 2008**.

Nominations, accompanied by a curriculum vitae, should be sent to the Chair of the Publications Committee:

Kim E. Barrett, Ph.D.
9650 Rockville Pike
Bethesda, MD 20814-3991

---

CALL FOR NOMINATIONS

for the Editorship of

*American Journal of Physiology-Gastrointestinal and Liver Physiology*

Nominations are invited for the Editorship of the *American Journal of Physiology-Gastrointestinal and Liver Physiology* to succeed M. Montrose, who will complete his term as Editor on June 30, 2009. The Publications Committee plans to interview candidates in the Fall of 2008.

Applications should be received before **August 15, 2008**.

Nominations, accompanied by a curriculum vitae, should be sent to the Chair of the Publications Committee:

Kim E. Barrett, Ph.D.
9650 Rockville Pike
Bethesda, MD 20814-3991
The Integrative Biology of Exercise - V
September 24 - 27, 2008, Hilton Head, South Carolina

Track the Topics, Authors, and Articles important to you with...

What is CiteTrack?
CiteTrack is a free service that will alert you by e-mail whenever new articles matching a search criteria of your choice are published in an American Physiological Society (APS) journal or when a new article published in any of the participating journals in this program (which includes over 1,120 titles) cites an APS journal article of your interest. You can track the following:

- **Topics**...tell CiteTrack which words or subjects to watch for in new content.
- **Authors**...be alerted whenever key authors you are following publish a new paper.
- **Articles**...know whenever a paper of interest to you is referenced by another paper or letter.

Who Can Use CiteTrack Services?
CiteTrack services are provided free to individual subscribers of each APS print or online journal. If you are not a subscriber but you are interested in subscribing to this free service (or changing your current subscription), then all you need to do is provide us with your e-mail address. Once set up, CiteTrack will let you access for free the abstract of any article. If you want to see the full text of articles, you or your library will need an online subscription to that particular journal.

Sign up for CiteTrack Today...
Visit the individual APS journal web sites (listed below), click on <Subscriptions>, and select <CiteTrack>.

E-mail alerts include citations and URLs for articles that match your criteria in each journal you are tracking.

2.8.08
THE APS JOURNAL LEGACY CONTENT is an “online package” of over 100 years of historical scientific research from 13 American Physiological Society (APS) research journals.

- It can be purchased separately at a one-time charge for perpetual use. This Legacy Content is **FREE to APS Members** ($2,000 for nonmembers). • It is a separate program from the Subscription Program in that you pay once for the perpetual access to the online content from all APS journals from 1898 to 1996-1998, depending on the journal (see chart below). This content goes back to the first issue of each of the APS journals—including the *American Journal of Physiology*, first published in 1898. This legacy content can be viewed as completely searchable scanned images of the printed pages.

**PLEASE NOTE:** All online content published after the end dates for the journals above is free to all 12 months after publication.
Excerpts From The Book

CHAPTER 1: Preamble—general considerations

What’s a preamble? A bit like priming the pump, a pre-systolic accentuation in mitral stenosis perhaps. Fat Albert’s rocket-assisted takeoff (footnote: Fat Albert is the C-130 transport that supports the Blue Angels, and if you don’t know what a C-130 is or who the Blue Angels are, may your Dean have pity on your soul).

Point 1: Wine appreciation should be done in parallel, not in series.

Point 2: No matter what type of wine, no matter how good or bad it actually is, no matter how experienced a taster you may be (or think you may be), you must remember this (not the song): There are TWO parts to the appreciation of wines.

Point 3: Don’t be seduced by the label, or the price or (especially) the reputation of a particular wine.

Point 4: A closely parallel warning: Don’t be influenced by your fellow tasters, not even by me.

CHAPTER 2: The Process of Evaluation of a Wine—step by step

PART 1: Do you like the damn stuff or not?

PART 2: Why you like or hate the damn stuff. Science rules, sort of.

CHAPTER 3: The Most Common Grape and Wine Varieties—their features as wines

There are many styles of grapegrowing and winemaking that provide a wide array of attributes in the finished wine, even wines from the same grapes in adjacent regions. What follows describes the classical, expected, stereotypical features of each, especially as they apply to U.S. wines.

CHAPTER 4: The Conduct of a Wine-Tasting Session—how to run it

Remember, you do not need to know anything at all about wine or tasting to succeed here. All you need is courage, bravado, and a proficiency in public speaking (which you have all gotten anyway from years of teaching graduate and medical students). Remember—the more forcefully you speak, the more enobabble you use, the more your reputation grows even if you are flat out wrong in everything you say. It’s not what you say, it’s how you say it.
Abbreviations

Listed are abbreviations and their definitions. These may be used without definition in the APS Journals. See Information for Authors (www.the-aps.org/publications/journals/pub_quick.htm) for other abbreviations, symbols, and terminology.
