**Scope of Journal**

The *American Journal of Physiology-Regulatory, Integrative and Comparative Physiology* publishes original investigations that illuminate normal or abnormal regulation and integration of physiological mechanisms at all levels of biological organization, ranging from molecules to humans, including clinical investigations. Major areas of emphasis include:

- appetite, obesity, digestion, and metabolism
- genetically modified animals and model organisms
- inflammation and cytokines
- renal hemodynamics and cardiorenal integration
- neurohumoral control of cardiovascular function
- developmental physiology and pregnancy
- environmental, exercise and respiratory physiology
- comparative and evolutionary physiology
- sleep and temperature regulation
- water and electrolyte homeostasis

Authors are required to submit papers online at www.apscentral.org.

Instant Access to Accepted Papers Online

The American Physiological Society publishes online—within only days after their acceptance—peer-reviewed papers submitted to our prestigious research journals. Articles in Press dramatically reduce time to publication.

APS Articles in Press are citable, searchable in PubMed, and will establish publication priority.

These articles are published in PDF format and reflect the original, unedited, accepted version, as submitted by the author.

Once a paper is published online as an Article in Press, it proceeds through the established course of thorough copyediting and production, leading to its publication (about 9 weeks later) in the final online and print editions of the appropriate APS Journal. This final version will bear the date, volume, and page numbers as well as the Articles in Press publication date and identifier, called the DOI.

After the journal issue is published online and in print, the final version of the paper will come up on search while the Articles in Press version will be stored in an accessible, permanent archive.
CALL FOR NOMINATIONS
for the Editorship of the
American Journal of Physiology-Endocrinology and Metabolism

Nominations are invited for the Editorship of the American Journal of Physiology-Endocrinology and Metabolism to succeed Amira Klip, who will complete her term as Editor on June 30, 2010. The Publications Committee plans to interview candidates in the Fall of 2009.

Applications should be received before August 15, 2009.

Nominations, accompanied by a curriculum vitae, should be sent to the Chair of the Publications Committee.
