Scope of Journal

The Journal of Applied Physiology publishes original papers that deal with diverse areas of research in applied physiology, especially those papers emphasizing adaptive and integrative mechanisms. Adaptive physiology includes 1) inherent adaptations such as those related to development, aging, and pathophysiological conditions and 2) adaptations to the external environment such as those occurring with exercise, microgravity, hypoxia, hypo- and hyperbaria, and hypo- and hyperthermic conditions. Integrative physiology includes 1) horizontal integration across organ systems and 2) vertical integration from molecule to cell to organ. In all areas of applied physiology, the use of cutting-edge techniques including molecular and cellular biology is strongly encouraged.

The wide scientific span of the Journal rests on physiology as its keystone. However, the boundaries of physiology have enlarged as demarcations between concepts and techniques in the physiological, pharmacological, and biochemical sciences become increasingly blurred. Moreover, theoretical articles on research at any level of biological organization ranging from molecules to humans fall within the broad scope of the Journal. Papers dealing with topics in other basic sciences that impinge on physiology are also welcome.

Authors are required to submit papers online at www.apscentral.org.

A Few HOT Articles

Explosive-strength training improves 5-km running time by improving running economy and muscle power
Leena Paavolainen, Keijo Häkkinen, Ismo Hämäläinen, Ari Nummela, Heikki Rusko
J. Appl. Physiol. May 01, 1999; 86: 1527-1533

Improved muscular efficiency displayed as Tour de France champion matures
Edward F. Coyle
J. Appl. Physiol. Jun 01, 2005; 98: 2191-2196

Effects of exercise and diet on chronic disease
Christian K. Roberts, R. James Barnard
J. Appl. Physiol. Jan 01, 2005; 98: 3-30

Effects of caffeine on blood pressure, heart rate, and forearm blood flow during dynamic leg exercise
Jason W. Daniels, Paul A. Molé, James D. Shaffrath, Charles L. Stebbins
J. Appl. Physiol. Jul 01, 1998; 85: 154-159

Ascent rate, age, maximal oxygen uptake, adiposity, and circulating venous bubbles after diving
D. Carturan, A. Boussuges, P. Vanuxem, A. Bar-Hen, H. Burnet, B. Gardette
J. Appl. Physiol. Oct 01, 2002; 93: 1349-1356

Reader & Author Benefits

- Fully searchable text, including PubMed
- Rich color and sharp resolution of figures
- Editor’s Home Page at www.the-aps.org/publications/jappl
- Access to the extensive collection of back issues available online 12 months after publication
- FREE e-mail notification of new content as it becomes available
- Manuscripts online within days of acceptance
- Perpetual/Electronic Archiving of the LOCKSS and CLOCKSS systems preserves the electronic content of all APS journals

AuthorChoice

Authors can choose to pay a fee on top of regular author fees and have their article made free immediately ($2,000 for research articles and $3,000 for review articles).
American Journal of Physiology—Heart and Circulatory Physiology

Director of Publications/Executive Editor,
Rita Scheman (301) 634-7070
Editorial Manager, Mark Goodwin (301) 634-7072
Submitted and Accepted Manuscripts:
Teki Bynum (301) 634-7247
Copyediting and Production:
Journal Supervisor, Joseph Girouard (301) 634-7223
Editorial Art Manager,
Eric Pesanelli (301) 634-7973

For instructions on how to prepare your manuscript to conform to APS style, please see
http://www.the-aps.org/publications/journals/i4a/index.htm

Manuscripts to AJPH are submitted online through www.apscentral.org.
Mandatory Submission Forms and Fee Forms customized to your manuscript become available on completion of the
submission process. For extra copies of blank forms, see http://www.the-aps.org/publications/journals/index.htm
If you use a blank form, please write the manuscript number, title, and author’s name CLEARLY on the form.

APS Members are individuals worldwide whose work focuses on a wide variety of disciplines
devoted to human and animal health and function—including systems biology, genomics,
translational research and all other life sciences.

The majority of this international membership hold doctoral degrees in physiology, medicine,
or other health professions; and they are employed in universities, hospitals, industrial
organizations, medical schools, private foundations, and government. APS also has
Student and Affiliate members.

The APS Journals
Key Facts!

One Physiology Collection—to Multiple Disciplines

BIOSIS PREVIEWS • ISI Web of Science • MEDLINE and PubMed: APS Journal content is indexed through all of these excellent services.

HighWire: APS journals are hosted by HighWire Press, Stanford University Libraries, the largest repository of high impact, peer-reviewed content, with 1,232 journals.

eTOCs (electronic Table of Contents): Receive instant notification of new APS content.

CiteTrack: Use your own criteria and key words to be notified of newly posted APS journal content.

RSS Feeds: Another great way to receive a notification of newly posted APS journal content.

Free Necessary Color: Regular or Student members of APS who are first or last authors of articles in any of the APS research journals get free scientifically necessary color.

FREE Online Access to the extensive collection of back issues 12 months after publication.

AuthorChoice: Authors can choose to pay a fee on top of regular author fees and have their article made free immediately ($2,000 for research articles and $3,000 for review articles).

Articles in Press: Instant, subscription-based access to newest research (post-acceptance, pre-copyedited) in original manuscript format.

Legacy Content: Online package of over 100 years of historical scientific research from 13 American Physiological Society research journals going back to the first issue of each of the APS journals.

Manuscripts online within days of acceptance!
Meetings & Conferences
of the American Physiological Society

**Experimental Biology 2010**
April 24-28, 2010 • Anaheim, California

**2010 APS Intersociety Meeting:**
Global Change and Global Science: Comparative Physiology in a Changing World
August 4-7, 2010 • Westminster, Colorado

**2010 APS Conference:**
Inflammation, Immunity and Cardiovascular Disease
August 25-28, 2010 • Westminster, Colorado

**Experimental Biology 2011**
April 9-13, 2011 • Washington, D.C.

**2011 APS Conference:**
7th International Symposium on Aldosterone
the ENaC/degeneration Family of Ion Channels:
Molecular Mechanisms and Pathophysiology
Date and Location to be Determined

**2011 APS Conference:**
Autonomic Regulation of Cardiovascular Function in Health and Disease
Date and Location to be Determined

The American Physiological Society, Meetings Department

2010 American Physiological Society
Intersociety Meeting

Global Change and Global Science: Comparative Physiology in a Changing World

PRELIMINARY PROGRAM:

- The Role of Physiology in Organismal Responses to Global Warming
- Off the Beaten Path: Integrative Aspects of Muscle Function During Diverse Locomotor Behaviors
- Hydration, Desiccation, Regulation: The Comparative Physiology of Water Balance
- Physiological Effects of Ocean Acidification on Marine Animals in Times of Ocean Warming: Ecosystem Implications
- Evaluating the Effects of Global Climate Change to the Fauna of South American Biomes: Consequences to Diversity from a Physiological Perspective
- Environmental Adaptations of Cardio-Respiratory Systems
- Putting Comparative Physiology to Work in the Field: Stable Isotopes as Tracers of Ecological Processes
- Genomics and Proteomics Approaches to Understanding Environmental Stress
- The Life History Physiology Nexus
- The Physiology of Trace Metal Homeostasis and Toxicity
- Global Change and the Emerging Threat of Dead Zones: Can Individuals, Populations, Species, and Communities Respond to Increasingly Hypoxic Oceans?

Date & Location:
August 4-7, 2010
Westin Westminster
Westminster, Colorado

Abstracts Due: May 3, 2010
Advance Registration: June 25, 2010

Developing Countries’ Access to Information for Life

Access to current international peer-reviewed research is an essential element in enabling scientists, researchers, policy-makers and medical practitioners in developing countries to find local solutions to local health, environmental, social, economic, and food issues.

To answer this call, this journal is available free or at very low cost within institutions in more than a hundred of the world's poorest countries in partnership with the World Health Organization’s HINARI initiative.

For more information visit www.who.int/hinari
