Scope of Journal
The American Journal of Physiology-Renal Physiology covers all areas of renal physiology, including:

- original, innovative research on the kidney, urinary tract, and their respective cells and vasculature
- thought-provoking investigations involving human and animal models, individual cell types, and isolated membrane systems
- cross-disciplinary papers on the pathophysiological basis of disease processes in the kidney, the urinary tract, and in the regulation of body fluids
- timely editorial reviews

Authors are required to submit papers online at www.apscentral.org.
