Bellio MA, Rodrigues CO, Landin A, Hatzistergos KE, Kuznetsov J, Florea V, Valasaki K, Khan A, Hare JM, Schulman IH. Physiological and hypoxic oxygen concentration differentially regulates human c-Kit+/H11001 cardiac stem cell proliferation and migration. Am J Physiol Heart Circ Physiol 311: pages TBD, 2016. First published September 30, 2016; doi:10.1152/ajpheart.00449.2016.— In the Articles-in-Press version of the manuscript only, posted online ahead-of-print on September 30, 2016, there has been a change of authorship with the addition of a previously undeclared coauthor, Jeffim Kuznetsov.

As such, the new author line of the manuscript reads as follows: Michael A. Bellio,1 Claudia O. Rodrigues,1 Ana Marie Landin,1 Konstantinos E. Hatzistergos,1 Jeffim Kuznetsov,1 Victoria Florea,1 Krystalenia Valasaki,1 Aisha Khan,4 Joshua M. Hare,1 and Ivonne Hernandez Schulman1,2.

The revised author line in the Abstract is as stated above in the Abstract citation for this corrigendum.
